

GAUR BRAHMAN COLLEGE OF EDUCATION, ROHTAK

Future Plans of action for next academic year 2021-22

- **Enhancement of the Curriculum:** Make sure that the curriculum is kept up to date and aligned with the most recent standards, trends, and requirements for teaching.
- **Technology Integration:** Use digital tools, online resources, and virtual learning environments to further incorporate technology into the teaching and learning process. Encourage academic staff and students to conduct innovative research projects that advance the philosophy and practice of education.
- **Collaborations & Partnerships:** To improve possibilities for student learning, research, and professional growth, cultivates collaborations with other educational institutions, organizations, and stakeholders.
- **Professional Development:** To keep professors and staff up to date on the latest innovations, emerging trends, and best practices in education, offer them opportunities for continuous professional development.
- **Student Support Services:** To promote the complete growth and well-being of students, strengthen student support services, which include academic advising, counselling, and career guidance.
- **Community involvement:** To strengthen ties between the college and the larger community, expand community involvement programmes such outreach campaigns, service-learning projects, and collaborations with nearby schools.
- **Infrastructure Development:** To support teaching, learning, and research activities, funds should be allocated to the construction and upkeep of contemporary infrastructure, such as classrooms, labs, libraries, and leisure centres.
- **Quality Assurance:** Put in place procedures for quality assurance to keep an eye on programmes and services' efficacy on a constant basis, guaranteeing high standards for student outcomes and educational excellence.
